1080p Full HD Footage Day & Night

SANNCE wireless surveillance system with 4 IP cameras, you can see the details of your home environment 24 hours a day. Equipped with 2 pcs IR LEDs, the camera sees objects clearly even from up to 100 ft away in low-light conditions.

Premium 10.1" LCD Monitor

The 10.1" LCD monitor provides clear live view of all cameras, saves the cost of the extra screen and adds flexibility to your surveillance system. With the built-in mic in camera and speaker in NVR, you can also record audio and play videos with sound.

Plug-and-Play Wireless Security System

This WiFi security system is hassle-free and easy to use. Just power the cameras and connect to the NVR, then you can instantly view and record the stream on the monitor and 24/7 recordings without Internet.

1,000 ft Wireless Transmission Range

The NVR connects to IP cameras via their own proprietary WiFi signal (up to 1,000 ft in open areas). The plug-and-play WiFi IP camera system provides re-at-time live view and 24/7 surveillance even without a router.

3-Step Remote Access

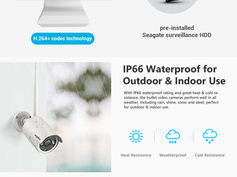
With the free SANNCE Sight App, you can control all cameras in one place. Just download the app, and scan the QR code to add cameras to your mobile devices, then you can enjoy live view wherever and whenever.

Instant Motion-Triggered Alerts

Once the camera captures motion events, the system sends you real-time app notifications and email alerts with snapshots, so you can know what is happening and take proper action immediately.

24/7 Recording with Professional Surveillance HDD

With the pre-installed Seagate surveillance HDD and H.264+ codec technology, the security system provides reliable 24/7 recording. You can play back the records whenever you like and back up the important clips.



IP66 Waterproof for Outdoor & Indoor Use

With IP66 waterproof rating and great heat & cold resistance, the further video cameras perform well in all weather including rain, shine, snow and sleet, perfect for outdoor & indoor use.
