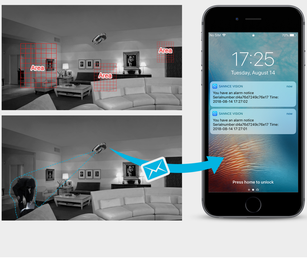
## SMART MOTION-TRIGGERED ALERTS

You can mark out the relevant areas for motion detection to minimize false alerts and save hard drive space. As soon as motion detection is triggered in the marked areas, instant email alerts and APP push alerts will be sent to you.



## H.264 VIDEO COMPRESSION

With the H.264 video compression technology, more memory space will be saved in storing the same surveillance video. It delivers much smoother video recordings and saves you the cost of buying an extra HDD.

## 1080P HDMI & VGA OUTPUT

On the back panel of the DVR, we provide HDMI and VGA 1080P full-HD outputs. And the DVR's default HDMI/VGA resolution is 1024*768. You can connect a HD monitor to it for your live viewing and video playback.
