

ELECTRIC HOT WATER TAP

ENER-J®
Smart Home Living

SKU Code: BW1005
EAN Code: 7061251384267

Electronic Bathroom Basin Hot Water Tap with Digital Display of Temperature

ENER-J's Instant Water Tap gives you the flexibility of heating element inside so no separate line required for hot water. Just the cold water feed is enough. If you don't have combi-boiler or have to heat the water separately, then this is the perfect product. Stylish design and amazing finish, this tap will improve the look of your kitchen.

Technology Data

Product Model	BW1005
Voltage	220-240V
Power	3300W
Rated Current	14.3A
Required Circuit Breaker	20A
Operation Mode	Hand Shank
Thermal Cut-out	95°C
Min. Water flow to activate	1L/Min
Min. Water Flow to Activate	1.5L/min.
Rated Pressure	0MPa
Water Pressure	0.02 -0.6MPa
Water Connections	G1/2"
Product Size	200*60*420mm

Specification

1. Stainless steel body with brushed surface treatment, finger print proof.
2. Instant for Hot/Cold water supply. No wait. No waste.
3. Patent Heating technology, much longer service life.
4. Easy installation, power cord can be connected above or under sink.
5. Nozzle is rotatable in 180° convenient for use.
6. LED digital temperature display, the outlet temperature in clear at glance.
7. Overheat protection & dry heating protection.
8. Fault auto-detection technique, error code will appear automatically while failure.

Application

- Kitchen Sink
- Bathroom Basin
- Public Place
