Limpieza y mantenimiento

Limpiar el desagüe regularmente para evitar que el drenaje se atasque. Limpiar el cuarto de ducha con trapo y detergente suave.

No limpiar el cuarto de ducha con detergente irritante, como: alcohol, gasolina u otro limpiador químico.

Si quedan manchas en el cuarto de ducha puede limpiar usando pasta dental y luego agua.

Después que haya terminado la instalación, si nota algún sonido al mover las puertas, puede colocar un poco de lubricante en los rodamientos y/o carril de guía.
