How to Get Your Dog Used to Using a Ramp

This may not be necessary but some pets need a little extra TLC

Start with the ramp flat on the ground so your pet can sniff it

Practice walking on the ramp with a lead while the ramp is flat on the ground - use treats

Gradually raise the ramp

Put treats at various places up the ramp once your pet is ready for the car

Put a towel over the surface if they are unsure of the ramp texture

Offer praise and encouragement

Never force them, get angry or force them up
