- Lodges
- Bike stores
- Shelters
- Beach huts
- Log stores

Watershed Roofing Kits for garden buildings provide a long-lasting roof for your garden building. Made from lightweight, easy-to-handle corrugated roofing tiles, rain water is channelled effectively down the slope of the roof and away from the building.

Watershed roofing kits for garden buildings

- A complete kit of parts consisting of roof tiles, ridge tiles, timber battens, fixing screws and screw caps
- Water-repellent bitumen tiles overlap lengthways and widthways for a weather-proof seal
- Suitable for pent and apex roofs with a pitch of 10 degrees or more
- Easy-to-handle, light-weight flexible tiles- max weight 2.0kg per tile
- Can be used with or without guttering
- No maintenance needed – simply brush loose debris away periodically

- Each kit supplies the correct number of tiles to cover the roof
- Flexible ridge tiles accommodate a wide range of roof angles
- Extends roof life – rain water is channelled down the tiles
- Tools required electric screwdriver, tape measure, step ladders
- Attractive corrugated design and dark colour
- Guaranteed against weathering for 10 years

- Manufactured in compliance with EN534:1998 Corrugated Bitumen Sheets and ISO14001:2004 Environmental standards
