

ANNKE

Video Surveillance System

Supported by the World's #1 Surveillance Manufacturer

720P HD

5-in-1 DVR

H.264+

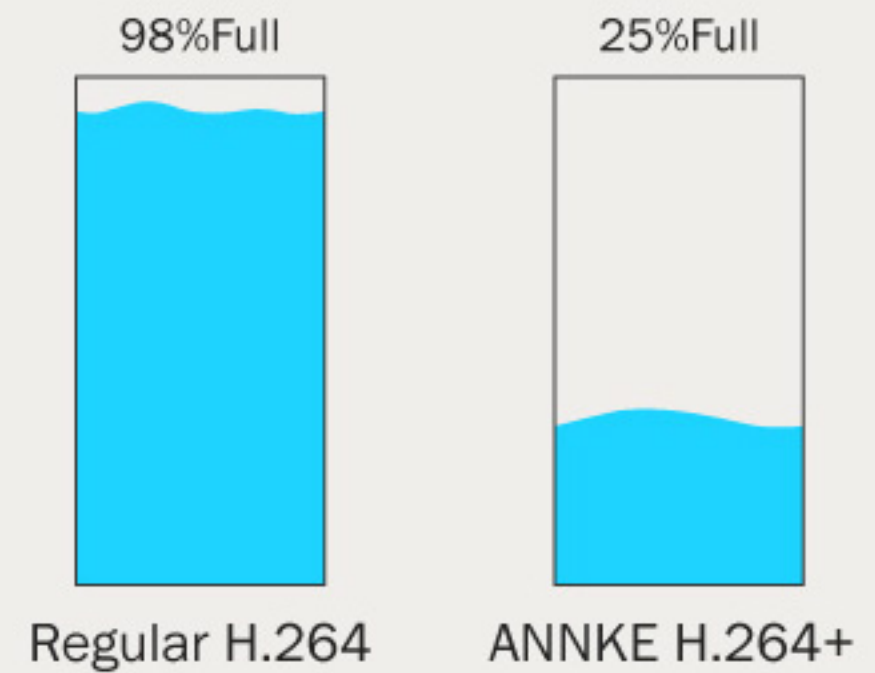

IP66

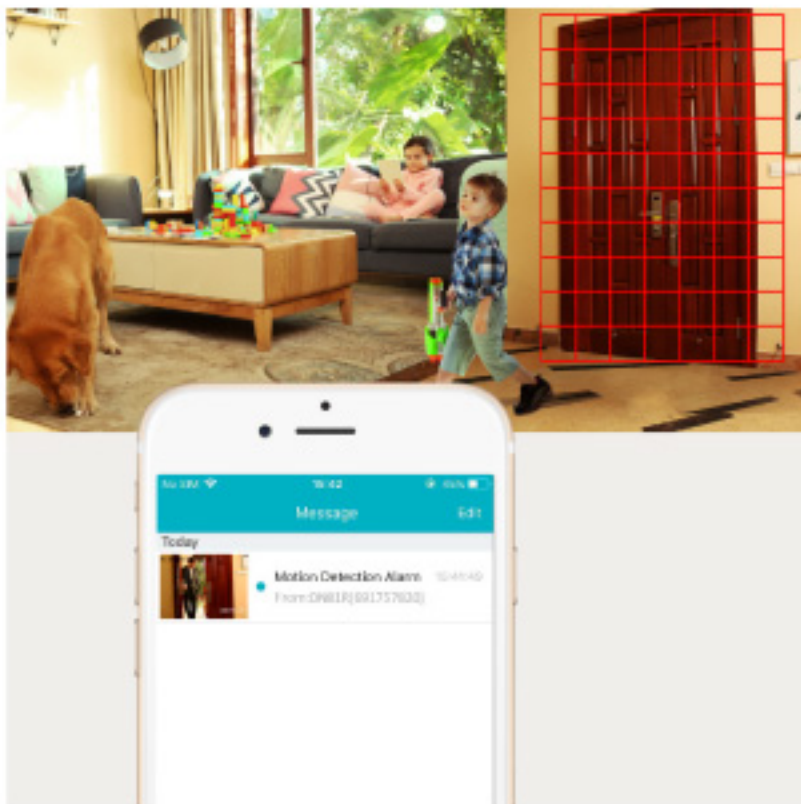

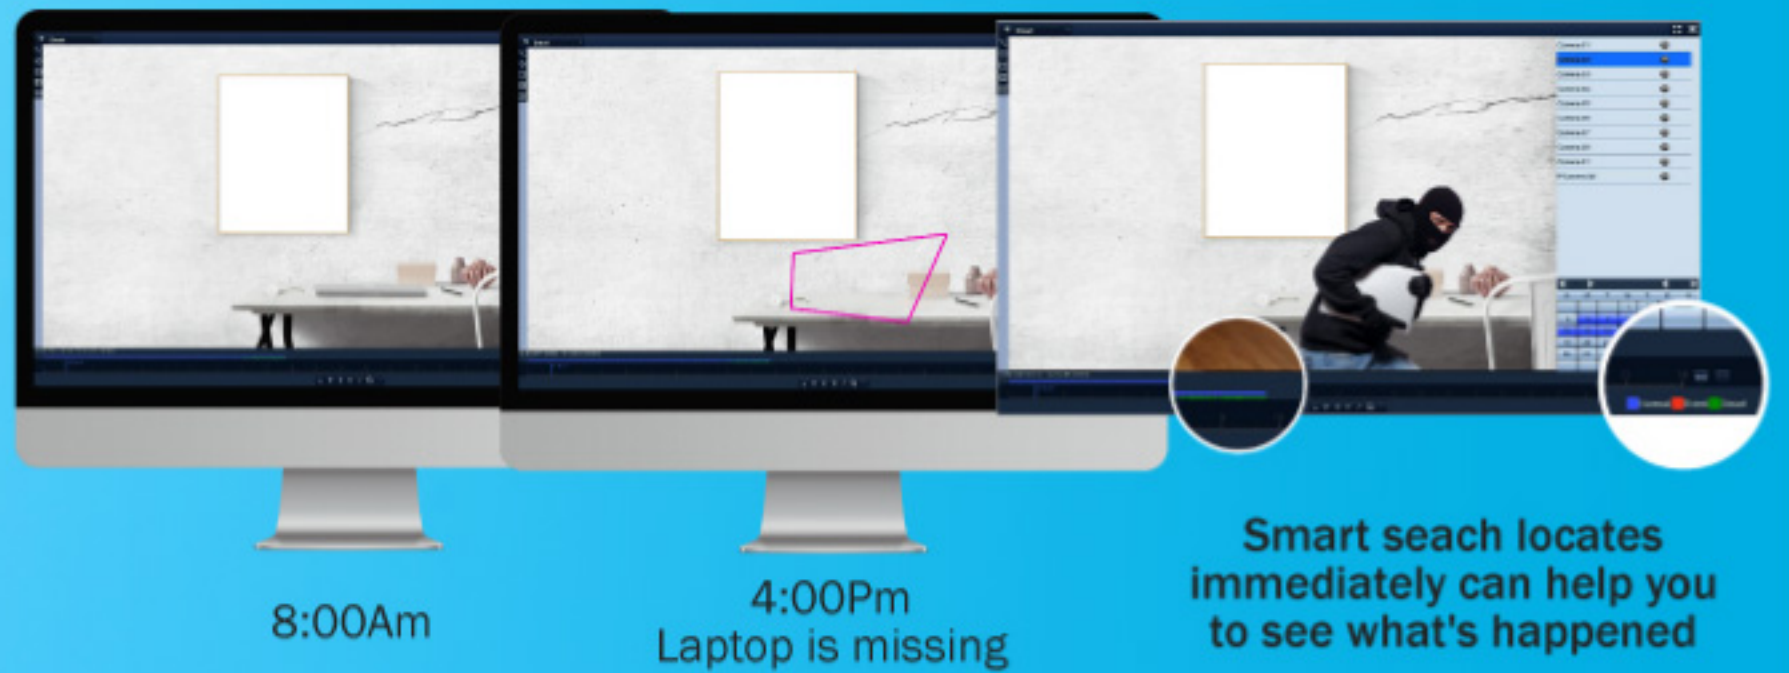

H.264+ Advanced Compression

Enable H.264+, you can keep recording for 50 days in a 1TB HDD on normal conditions, while with H.264 only 12-day footage available.

Smart playback

Mark out the searching ranges on the video, the clips contain movements would be auto selected and presented in the custom masked zones.

Minimize false alerts

Select the areas to activate motion detection so you get email alerts along with photo evidence only if movement detected within the marked zone.

Extendable 2 more IPCs

The DVR supports ONVIF standard thus it accepts up to 2 extra 960P IPC (not included) connections even when its 8 channels got occupied

DVR metal casing

The DVR is built with the metal outlet to ensure better heat conduction, which helps to maintain the inner working environment for apparatus and prolongs its life.
