Introduction

Thank you for purchasing this quality product. **To minimize the risk of injury we urge that our clients take some basic safety precautions when using this device. Please read the operation instructions carefully and make sure you have understood its content.** Keep these operation instructions safe.

Dear customer, as a user, please observe the information in these operating instructions to maintain the condition of the item and to ensure safe operation. Please pay attention to this in case you pass this product on to third parties, too. Therefore, keep the operating instructions in a safe and dry place for future reference.

Intended use

- This product is intended for the storage of objects. The product is only intended for use in private indoor areas.
- Any use other than that described above or any modification of the product is not permitted and can lead to injuries and/or damage to the product.
- The manufacturer assumes no liability for damage resulting from improper use. The product is not intended for commercial use.
- The shelf is not suitable for rooms with high humidity, as the humidity damages the wooden components.

Max. load capacity (kg)	50 (per shelf)

Warning!

Accident and fatal injury risk for infants and children!

- Never let children with the packaging materials unsupervised. There is a risk of suffocation.
- Keep the product away from children.
- It is not a toy.

Mortal danger!

Make sure that you do not hit any electricity, gas or water lines when you drill into the wall. If necessary, check with a pipe/cable detector before you drill into a wall.

Risk of injury!

- Ensure that all parts are undamaged and properly assembled/fitted. In the event of incorrect assembly/fitting there is a risk of injury. Damaged parts can affect safety and function.
- Do not let children unsupervised. The product is not a climbing frame or tool. Make sure that people, especially children, do not climb up onto the product and/or lean against it. Injuries and/or damage may result.
- Care was taken during the manufacture of the product to avoid any sharp edges. Handle the individual parts carefully so that any accidents/injuries during set-up and use are avoided.
- When assembling/fitting the product, please be sure to wear protective gloves.
- Ensure that the product is assembled/fitted only by competent adults.
- Only set the product on a level surface.
- Before using the product, check its stability.
- Do not load the product with more than 50 kg per shelf. Otherwise there is a risk of injury and/or damage to the product.
- The part showing the maximum load must be fitted at a clearly visible height (at the front).
- Ensure that the unit loading is evenly spread – avoid any overloading.
- In order to avoid any potential damage to the floor, pull on protective caps (7).
- After assembly, check that all parts are firmly connected together.
- Must be secured to the wall, otherwise a safety risk can occur.
- Before securing the product to the wall, check whether the chosen wall is suitable for this.
- Before securing the product to the wall, find out about appropriate fitting wall mounting material for your wall. These are not included with the product.

Assembly

- Remove the packaging material and dispose of it properly.
- Check if all components of the listed parts are present.
- To assemble the products, use only a rubber hammer.
- When fitting the cross members, ensure that the carrier edge for the shelving points up.
- Assemble the heavy-duty shelving according to instructions for use A-H.

Clean and maintenance

- Do not under any circumstances use petrol, solvents or any corrosive cleaning agents.
- For cleaning, use a light, slightly moistened, lint-free cloth and mild cleaning agent.

Disposal

- Dispose of packaging in local recycling containers.
- When the product is no longer in use, you will be able to find out about ways to dispose of it from your local authority or city administration.

Assembly drawings

(Rubber mallet not included.)
