Smart AI Human Detection

The AI human detection enables the CCTV IP system to send you instant alerts only when a human enters the detecting area. Never be bothered by animals or vehicles.

Advanced H.264+ Video Format

The H.264 video format consumes less storage & bandwidth than H.264 systems. Get smooth & fast stream with this H.264+ WiFi surveillance systems.

Auto Pairing and WiFi Repeater

The IP cameras and NVR connect to each other even from 1,50 ft away. The camera closest to the NVR can work as a WiFi repeater to boost the connection distance for the farthest camera, even from up to 3,30 ft away.

Remote Access & Motion Detection Alerts

Control the WiFi IP video camera system via your smartphone, tablet or computer wherever. Get instant app pushes & email alerts if there are motion events.

IP66 Waterproof & All-Metal Housing

IP66 waterproof rating ensures the wireless security camera can be placed outdoors or indoors. The durable full-metal housing provides long lifespan without corrosion and can withstand harsh impacts.
