

## Installation Video Reference

### IMPORTANT NOTE:

1. Before installing or replacing the bulb,  
Please cut off the power supply to ensure your safety.
2. If it is difficult for you to install,  
Please hire a certified and professional electrician to install it for you.
3. If you have any questions about the product, please do not hesitate  
to contact the after-sales service team. You will get a good answer,  
thank you for your patience and trust.
