Le bois est une matière vivante dont l'aspect évolue avec le temps. Afin de garantir la longévité et la résistance aux intempéries de nos produits, ceux-ci sont traités selon le procédé « autoclave ». Ce procédé peut entraîner l'apparition temporaire de tâches vertes sur le bois. Celles-ci sont normales et ne constituent en aucun cas un défaut. Elles disparaîtront naturellement avec le temps tandis que le produit conservera durablement tous les avantages du traitement.
