CLEANING & CARE

- Wipe regularly with clean water and a damp, clean, soft white cloth.
- General cleaning can be done as needed with a mild detergent and water solution.
- Always rinse with clean water and dry. For heavy soiling, dampen a soft white cloth or soft bristle brush. Use care as scrubbing can damage the surface.
- More difficult stains can be treated, but this should be occasional, not daily, cleaning.
- ANY cleaning solution used must be removed with clean water and a clean white cloth. Cleaning residue left on the material can cause it to dry out and crack, or affect the color.
- DO NOT use any cleaners with corrosive ingredients (lye, acids or ammonia).
