Back to Back Plastic Hook/Velour Loop

Product description:

1. ETN2 low profile plastic hook system.
2. B10-220 gram loop velour.

1. This is a plastic hook system that comprises of hundred of micro hooks formed on a plastic base substrate.
2. This is a velour brushed Nylon 220 gram fabric forming a very dense yet thin loop system.

Both these systems are laminated together forming a back to back high strength hook & loop system for a vast range of uses including the following.

Cable Management.

Plant Ties.

Removable Strapping Devices.
